SOURCE ONE SINGLE ESTATE VODKA, SHERRY RESTED

We take our single-estate vodka, which is distilled from 100% grains that were grown on our ranch in Minden, Nevada, and rest it in Oloroso sherry oak casks.

- Rich and deep color designates this as a unique vodka.
- Distilled and proofed with water from from the historic Well One, fed by the high Sierra snowmelt and dedicated to our distillery.
- Rested over 20 days in Spanish Oloroso Sherry Oak Casks.
- Twice-distilled to perfection.

TASTING NOTES

Floral aromas with sweet notes lead to stone fruit, particularly ripe cherry and raspberry, on the palate. The creamy oat mouthfeel produces a lovely finish for this unique expression of Source One.

PROCESS NOTES

We ferment with a neutral yeast, distill once through 40 rectification trays on our American column still, and then again on our German pot still to achieve 95-96% alcohol by volume. Finally, it's rested in Oloroso Sherry Oak Casks for over twenty days. Oats lend a body and mouthfeel that's unmatched by any of the other grains we tested during R&D. Sweetness and viscosity come through from the grain, creating a classically bright, clean spirit.

750 ml; 40% ALC/VOL
