# SOURCE ONE SINGLE ESTATE VODKA, WHEAT AND OAT BLEND

A single-estate vodka distilled from 100% grains that were grown on our own ranch in Minden, Nevada.

- Oats and wheat produce a silky mouthfeel with a bright finish.
- Source One's water comes from the historic Well One, which is fed by the high Sierra snowmelt and dedicated to our distillery.
- Twice-distilled to perfection.
- Produced in small batches and finished in copper pot stills.

## TASTING NOTES

The oats lend the spirit a rich mouthfeel and sweetness, while the wheat adds hints of nuts and cereal; the finish is clean and bright. This vodka has all the hallmarks of a classic, with just a bit more body.

## PROCESS NOTES

In the process of working with our original Source One vodka, we realized that a blend of grains offered a more classic experience for the vodka connoisseur. This blend of oat and wheat offers that, while still standing out as a unique expression of our local terroir.

We ferment with a neutral yeast, distill once through 40 rectification trays on our American column still, and then again on our German pot still to achieve 95-96% alcohol by volume. The blend of grains imparts notes of vanilla, butterscotch, and almond as well as a clean but viscous mouthfeel.

750 ml; 40% ALC/VOL
